COLUMNS
CAN BE JOINED
FOR INSTALLS
UP TO 4.2M
TALL

BT8380

SYSTEM X™ VERTICAL COLUMN

BT8380 vertical support columns are the backbone of most System X trolley or floor stand installations. Made from aluminium, the column is sturdy yet lightweight and is designed to support single or multiple horizontal mounting rails. A modern design aesthetic and integrated cable management gives a high-end finish to any install in which they are used. Available in 1.8m and 0.6m lengths, columns can also be joined together using extension kits (available separately) to create video wall and other installations at heights of up to 4.2m.

SPECIFICATION

| | |
|---------------------------------------|------------------------------------|
| Max load | Dependent on other components used |
| Lengths available (as standard) | 0.6m and 1.8m |
| Fixing kit to mount a horizontal rail | BT8380-JPK |
| Extension kit to join columns | BT8380-EXTV* |
| Compatible bases | BT8380-BASE / FFB / FSB |
| Colour | Black or Silver |

*(included with 0.6m column as standard)

FEATURES

- Part of the System X range for use in a variety of applications; freestanding, trolley, bolt down etc.
- Ideal for video walls and other multi-screen installations
- Can also be used for premium single screen applications
- Compatible with a variety of floor bases for use in different applications
- High-end aesthetic quality
- Multiple columns can be joined together using BT8380-EXTV to create taller columns
- Integrated cable management for a neat and tidy finish
- Supplied with plastic end caps, cable covers and trim strips to add to the high-end aesthetic quality
- Includes spare fixings to attach a B-Tech 'collar compatible' accessory (such as shelves) directly to the column
