► Description

The T-racks NCB42-66 is part of the 19 inch free standing rack series. This rack has a height of 42 units with a depth of 600 millimeters. In the standard configuration of the mounting profiles it is possible to install equipment with a maximum depth of 500 millimeters. When adjusting the mounting profiles to the maximum setting it is possible to install equipment to a maximum depth of 540 millimeters. Inside the rack are 3 fixed shelves for non 19 inch equipment. The racks are supplied with fans for extra cooling and also heavy duty castors and levellers. When installing equipment you can use the 19 inch mounting profiles that are inside the rack.
