

An incomparable entertainment experience.

Immerse yourself in your favorite content in Dolby Atmos or surround sound mode with the Horus 6 ATM.

Specifically designed to be placed on Horus 11F floor-standing loudspeakers to reproduce the vertical effects of Dolby Atmos and DTS:X tracks by reflection from the ceiling, the Horus 6 ATM can also be wall-mounted to reproduce surround effects.

It adopts a coaxial drive unit with a 3/4" dome tweeter and a 5" paper-cone bass midrange.

The Surround mode option, accessible via a rear selector, offers even greater flexibility, allowing the Horus 6 ATM to function not only as an Atmos loudspeaker, but also as a surround loudspeaker, enveloping the listening space in an immersive soundscape.

What's more, Dolby Atmos certification guarantees optimum compatibility with cutting-edge audio technologies, delivering an incomparable entertainment experience.
