

THE IW500

We are proud to finally unveil the new
IW500 THX Certified® Dominus in-wall LCR

GOOD THINGS TAKE TIME...

The new M&K Sound IW500 is the result of years of our expert engineering team's research and development. The loudspeaker is the first '2-in-1' THX Dominus Certified in-wall speaker, meaning that it meets identical performance requirements whether mounted vertically or horizontally.

With the IW500, there's no need to buy a center channel or rotate the array.

Once again, reference performance and functionality prove to be the hallmarks of M&K Sound.
