GS4P

DESCRIPTION

The GS4P by KGEAR is a compact, high-performance 2x18" subwoofer from the GS line.

Equipped with 2x high-efficiency 18" ferrite magnet woofers, it delivers 139 dB SPL with a powerful and controlled low-frequency response. Its reinforced plywood cabinet with a polyurea coating ensures durability while maintaining a sleek, modern design.

Designed for versatility, the GS4P integrates seamlessly with the GH loudspeaker line, thanks to a wide range of stainless steel rigging hardware and accessories for flexible mounting options.

All GS4P components are designed by the K-array R&D department and are custom made under the K-array quality control system.
